## **Sunflowers**

Reduction Plate Print

This was a project for my Art Class on Van Gogh. I wanted to show sunflowers, blooming, living and dying. The hardest part was drawing the detail in the petals, but I kept working at it until I got it the way I wanted. I was trying to show what my idea would look like out in nature. I was influenced by Van Gogh's *"Sunflowers in a Vase"* and my art teacher who told me to keep trying different things and gave me ideas to get me started.
