The Fibers of our Pastime

Photography

I got the idea for this picture because one of my assignments was to create a black and white close-up. My teacher, Mrs. Kolbasuk had shown me an example - a picture of a tennis ball in the grass. I immediately thought of using a worn out baseball to clearly depict the texture of the fibers and shell of the ball. I asked my brother, Lathan, to hold the ball in his hand to show the size of the ball. As an added bonus, I captured the image of his fingerprints.
