Use Your Brain

Colored Marker

I wanted to draw something meaningful that sent out a message. So, I drew this picture to show what happens to the teenagers my age that do marijuana. I personally find it disgusting and I think if kids my age keep smoking it, they might as well be zombies. Kids need to learn how to live about the influence of weed and peer pressure, because weed just makes you stupid. So many of the teens my age smoke marijuana all of the time, and it's just wasting their potential and talent. They're losing their education because of it. I want to show them what they will end up (ZOMBIES) if they don't use their brains and quit smoking marijuana.
