

# Learning Statement Template

---

NYSATA/NYSSBA Exhibit

**Advocate your program!!** As visual art teachers, we support classroom curriculum on a regular basis with integrated lessons that often support the other core subjects. For each art work submitted, please write a brief, 3 to 4 sentence summary explaining what the student artist learned while completing this project that demonstrates these types of connections.

After completing this form, please print this page and cut each summary along the dotted line and mount on a 3"x5" matt that is same color as what was used to matt the work, providing a 1/4" border. Each art piece submitted will need 2 labels printed, one for the art, one for the back of the summary card.
