A Few Of Our Favorite Things....

One of the best investments you can make as an art teacher is an excellent pencil sharpener. Raise your hand if you have bought a pencil sharpener and then have it die 2 months later. Guilty. While at a conference a few years ago I won an iPoint sharpener at the Westcott booth and fell in love! It is a pencil sharpener for art teachers. It was an auto feed model-which means no hands are needed to hold the pencil while it sharpens-freeing you up to do something else. When it is done it releases it! Yes. This is real. It also sharpens an entire class worth of pencils without dying on you. My sharpener lasted the whole school year, thousands and thousands of sharpenings! When I brought it out of storage the next year, it didn't seem to be working as well. I called the company and they sent me a replacement because each sharpener comes with a year warranty! So if you are on the market for a new sharpener give this brand a try. They have several models available, with the auto feed being the most expensive and other models working quite well too.
