

NYSATA Region 2 Getting Started with Encaustics

Are you fascinated by the look and feel of art created with wax? Learning encaustic techniques is equally intriguing. In this workshop you will learn the fundamental principles of working with pigmented wax to create your own encaustic art. We will start the workshop by learning about the products you will be using, health and safety issues, how to set up your palette for self or classroom, and then go into the application techniques. You will learn various ways on creating textures with applying paint and also carving, and incising into wax. You will leave the workshop with a solid foundation of working with wax and get a glimpse into the many directions you can take this medium and a 10"x10" work of art that could be used in the future for the NYSATA Conference Annual Member's Exhibit.

Presented by:
Kathryn Bevier
Fine Artist

Saturday, January 26th, 2019 • Tuesday, January 29th, 2019
